City Calendar Help

Select Filters

If you wish to filter the Calendar, enter the Start and End Date, Select a Category (or multiple Categories) and click 'Apply Selections'. The Calendar shows ALL Events (past, present and future) by default.

Categories

By default, all categories are checked.

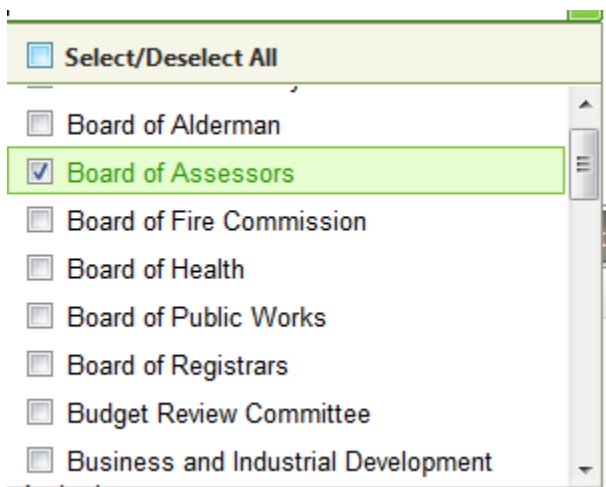

## Select/Deselect All Categories

To see just the category that you want, click Select/Deselect All to Deselect all the categories
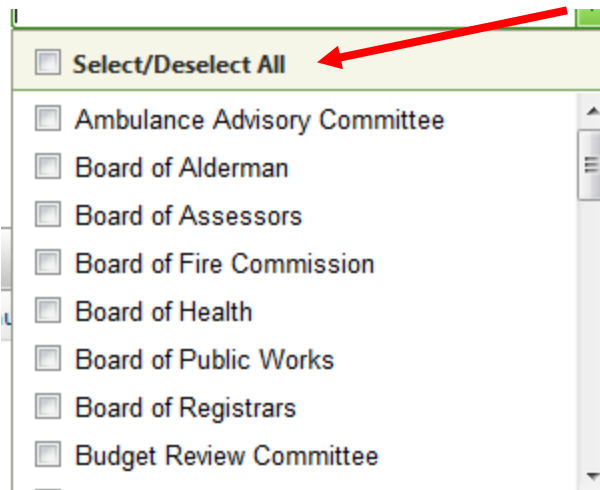

And choose just the one you want (or multiple Categories)

Conversely, if you want to see all the categories, click Select/Deselect All to Select all the categories
Print

Click the print icon to print the current chosen events

Subscribe and ICS File

Subscribe to an event if you want to be notified if the event details change

Download the ICS file to import the event into your mail application such as Microsoft Outlook

See Event Details

Click on the Event Title to see the details of the event

Calendar Views

There are two views of the calendar. List View, which lists all the chosen events in a list and Calendar View, which lists all the chosen events within a calendar.

Calendar View is the default view.
